### -----Carrier Objectives-----

Innovative, task-driven professional I hope my existence will drive the company to be successful one. As I am a dedicated person and a skilled worker so I hope my performance will attract clients.

### -----Skills-----

**Core Skills:** Java Script | React JS | HTML-5 | CSS-3 | Node JS | Express JS | JWT Token

**Familiar:** Type Script | C | Java | Material UI

**Frame Work:** React JS | Tailwind | Bootstrap | Daisy UI

**Tools:** Firebase | Github | Netlify | Mongo dB | React Query | React Hook Form

**Extra Skills:** Content writing | Leadership | Organise in working

### -----Projects-----

#### Old Mobile Buying and Selling Zone (MERN Stack Website)

- Dashboard system for users, sellers and admin and implement their authorization in server.
- Implement firebase authentication. Besides token-based access using Json Web Server (JWT)
- Use React hook form, React query, Axios to make the website more effective to use

**Technology:** React | Tailwind | Daisy UI | JWT | Firebase authentication | Axios | Express JS | Node JS

**Live site:** <https://mobile-hunter-sakir123.web.app/>

**Client Code:** <https://github.com/sakir101/Online-Phone-Buying-selling>

**Server Code:** <https://github.com/sakir101/online-phone-buying-selling-server>

#### Online Cooking Studio (MERN Stack Website)

- Implement firebase authentication. Token- based access while login or signup by JWT
- Use Mongo dB server for data hosting. Users can update, read, write and delete their data.
- Use routing system using React Router so that user can change pages without hard loading

**Technology:** React | Tailwind | Daisy UI | JWT | Firebase authentication | Express JS | Node JS

**Live site:** <https://mobile-hunter-f9252.web.app/>

**Client Code:** <https://github.com/sakir101/online-cooking-studio>

**Server Code:** <https://github.com/sakir101/online-cooking-studio-server>

#### Online Programming Language Learner (MERN Stack Website)

- Use React, bootstrap to implement the whole frontend site. Use Node JS, Express JS for the backend
- Implement authentication system using firebase. Use the navigation system to auto navigate
- React pdf generator for downloading the pdf files. Use Mongo dB for data hosting.

**Technology:** React | Bootstrap | Firebase authentication | Express JS | Node JS | Mongo dB

**Live site:** <https://p-skool.web.app/>

**Client Code:** <https://github.com/sakir101/promming-school-online>

**Server Code:** <https://github.com/sakir101/programming-school-online-server>

### -----Extra Curriculum Activities-----

- Executive member at Daffodil Computer Club
- Member at Prothom Alo Bondhusova
- Participate in ICPC, Basis ICT Award Winning Competition
- 100+ Programming Problem Solve, UX Design.

### -----Education-----

B.Sc in Computer Science and Engineering at Daffodil International University  
**CGPA:** 3.91
